

Announcement:

It has come to our notice that the Master of Science in Marketing and Consumer Psychology programme offered by the Department of Business Administration has been illegitimately used in promoting immigration packages for residents of PRC. We wish to declare unequivocally that neither the University nor the Department has commissioned any agent to promote the programme as part of immigration packages.

If you suspect that you have fallen prey to any such schemes, you should protect your rights by reporting this to an authority at your location.
