

Interdisciplinary  
Perspective  
跨學科角度

Area Four 領域四

## OBJECTIVE 課程目標

Interdisciplinary is an approach to answering questions, solving problems and addressing contemporary social issues by synthesizing knowledge from multiple disciplines. Interdisciplinary Studies has become popular in local and overseas tertiary institutions and is considered to be a new paradigm for creating knowledge in the 21st century. The idea of interdisciplinarity would lead students to view the world as an integrated whole and learn to solve a problem with knowledges acquired from different disciplines. 跨學科是一種通過綜合多學科知識去解答問題、解決困難以及處理當代社會問題的方法。跨學科研究已在本地和海外大專院校流行，也被認為是 21 世紀創造知識的模式。跨學科的概念將引導學生把世界視為一個整體，並學會利用不同學科的知識來解決問題。
