

Research Assistant

The Research Centre for Digital Education and Blended Intelligence at Hong Kong Shue Yan University is seeking a highly motivated and dedicated individual to join our team as a Research Assistant. The appointee will play a crucial role in supporting research activities and contributing to the development of innovative teaching methods.

Responsibilities:

- Conduct literature reviews and gather relevant research articles and resources to support ongoing research projects related to digital teaching and blended intelligence.
- Collect and analyse data using various research methods, tools, and software.
- Collaborate with research team members to design and execute experiments and studies.
- Assist in the preparation and submission of research grant proposals.
- Assist in the recruitment and coordination of research participants.
- Maintain accurate and organized records of research data and findings.
- Assist in the preparation of research reports, presentations, and publications.
- Assist in the organization and coordination of workshops, seminars, and conferences related to digital education and blended intelligence.

Requirements:

- Bachelor's degree in psychology, education, computer science, instructional science, or a related field.
- Strong interest in digital education, educational psychology, or blended intelligence.
- Proficiency in quantitative and qualitative data collection, analysis, and interpretation.
- Excellent communication and interpersonal skills.
- Ability to work independently and collaboratively in a team environment.

Salary will be commensurate with qualifications and experience. Interested candidates are invited to submit their CV and a completed application form to the Hong Kong Shue Yan University at tschow@hksyu.edu (Contact person: Dr. Jason Chow) on or before 31 Jan 2024. Personal data collected will be used for recruitment purposes only.
