

URGENT

Full-time Research Assistant in the Department of Social Work:

One position (Appointment for 12 months with possibility of extension)

Project: How Stroke-Survivor-Adult-Children-Caregiver Dyads Have Coped Interdependently in Achieving Well-being: A Mixed-Methods Study Informing Policy Decisions (UGC/FDS15/H13/24)

Duties: Perform quantitative and qualitative statistical analysis, prepare and update related documentation (including literature reviews, article writing, and work progress reports), manage projects, and perform other duties as assigned.

Requirements: An undergraduate honor degree in Social Sciences (e.g., psychology, sociology, social work) or related disciplines plus research experience. Demonstrated ability to carry out research independently, proficiency in quantitative analysis and research methodology, good written and spoken English and Chinese, good interpersonal and communication skills, computer knowledge, strong organizational skills, and ability to work independently and with a team are required. Knowledge of multi-media and online teaching platforms must be an asset. Candidates should have experience in SPSS and/or Nvivo or related software. The remuneration package will be commensurate with qualifications and experience.

Please send the completed application form, an updated CV, and the names and contact information of two referees to Prof. Esther CHOW at owchow@hkysyu.edu. Application Forms (academic positions) can be obtained at <https://www.hkysyu.edu/en/snippets/external-vacancy>. All application materials will be held in strict confidence. Only shortlisted applicants will be contacted.

Applications will be considered until the position is filled.
